Below is a description of the type of activities your child will partake in, as well as our daily schedule and weekly themes.

Description:

Thank you for enrolling your child to St. Matthew's summer camp program. Our eight week summer program will include a variety of activities that will allow your children to learn at their own pace through art, music, movement, while expressing their imagination and creativity in a welcoming child centered environment. Our planned activities will focus on the theme *Camp Discovery: Discovering the world around me*. Camp Discovery will allow your child to discover their community, use their creativity and imaginations. We will learn what makes us special, as well as conducting hands on experiments, and having fun learning with popular story characters. We will provide opportunities for your child to practice their reading and writing skills, as well as for younger children (Pre K) to practice their fine motor skills (grasping writing tools, scissors, etc.), along with activities that will help them to recognize their name, letters, shapes, numbers, and colors. Additionally, we will provide several outdoor activities: walks, free play at the playground, water play with sprinkler and camp pool; as well as events with special guests from the community (i.e., fire workers, post office workers, etc.). We are excited to meet you and your children this summer, and plan on having a lot of fun!
